B. Fire Fighter Paramedic Service

Ms. Powers read the following memo from Chief Baldwin to Council.

Our Fire Department like many in our State and Nation has had an issue providing fire protection at a high level due to the low interest of citizens to become a paid on call firefighter; coupled with the need for the majority of the staff to work out of our community on a daily basis. During the day there is no guarantee that we would have any response to a fire call. This is not a new issue; neighboring departments around the region, the State and over the nation are going through the same issues. I have worked on community outreach and recruiting to try to help with the low numbers of firefighters and have seen very little results.

In May we contracted with the City of Presque Isle to provide our 911 EMS response. In August Northern Light Health decided to end their 911 EMS service to all our communities in the region. This change will result in the City of Presque Isle covering 13 communities for 911 EMS responses. The types of coverage the City of Presque Isle will provide has not been decided yet. Due to the coming changes, there may be some type of change in the level of service we receive. I have been building a plan to provide 911 EMS response and fire Protection to our community. We could transition into a combination Fire Department, career and paid on call employees. This would give us the ability it provide 911 EMS responses and increase our fire protection in our community. We will also be able to assist in our regional EMS crisis by possible coverage of the town of Limestone and Caswell for 911 EMS responses. It is my belief that having a full time service is the best decision for our citizens in Fort Fairfield and also for our region.

Ms. Powers - In May, the community gave the Council the directive at that Council Meeting to inquire and research having our own full-time ambulance service here in the Town of Fort Fairfield.

“It is imperative to the growth and stability of our community to provide a full-time fire protection and EMS service.”

Recommendation: Town Council approves moving forward with the Town providing a full time Fire Protection/EMS Service.

D. Public Works Purchase of Plow Truck

Background: Public Works fleet is aging and a severe winter like the one we just went through shows the need to update our equipment.

Discussion: After looking for several months Public Works has found and inspected a 2011 Freightliner M2112V tandem axel plow truck for $60,000. The truck appears to be in very good condition having low mileage (85000) and is equipped with Everest plow equipment and a four-season body.

The truck will replace the 1996 International tandem axel plow truck that will become a spare.

Recommendation: Town Council authorize the Town Manager to use not more than $60,000 from the Public Works Reserve Account (G 1-3066-00) to purchase the 2011 Freightliner tandem axel plow truck.

VII. New Business

A. Rec Department UTV

Discussion: It is our desire to use up to $21,000 to purchase a UTV, snow blower, and track system package. It is a tool that we will be able to utilize year round.

It is the same brand that the Fire Department has and we will be able to share accessories between the two UTV’s.

D. Audit FY 2018/2019

Background: Maine Revised Statutes, Title 30-A, §5823 requires each municipality to have an annual post audit of its accounts covering the last complete FY by the Office of the State Auditor or by a certified public accountant engaged by the municipal officers.

At its June 19, 2019 meeting, the Town Council authorized the Town Manager to engage Felch & Company LLC to conduct an audit of the Town’s financial statements for the year ending June 30, 2019.

Discussion: Felch & Company LLC completed its audit of the Town’s financial statements on September 12, 2019. Hard copies of the report were to be received on September 18, 2019 and a sample audit is included in Councilor’s meeting packet.

While the report contains a wealth of information that Town staff uses, two important parts of the report are Schedule 1, Budgetary Comparison, General Fund and the auditor’s report on internal controls and compliance. Schedule 1 states that the Town has a budget surplus of $63,922. The auditors identified no material weakness in the Town’s internal controls and no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

F. Changes to Land Use Chart

In order to amend the Fort Fairfield Zoning Ordinance Land Use Chart the Town Council would have to Introduce and Adopt an Ordinance to make the changes.

For Example: If a requested use is shown as "No" in the Land Use chart the Key could be changed to "PB2" that would allow the use with Site Design Review by the Planning Board.

There are many ways to move forward on a request for a change to the Land Use Chart.

1. A draft Ordinance could be prepared in advance by the Town Manager and their staff for Town Council consideration at a Regular Town Council Meeting.
2. The Town Council could direct the Town Manager and their staff to prepare a draft Ordinance for consideration.
3. The Town Council could ask the Planning Board to review the request for a change and make a recommendation on the requested change to the Land Use Chart and/or a Draft Ordinance.

Upon introduction of the Ordinance there would need to be scheduled a Public Hearing to receive comments on the proposed Ordinance.

After a duly posted and published Public Hearing the Town Council could consider the proposed Ordinance at their next Regular or Special Town Council Meeting.

When the Town Council is considering the proposed Ordinance they have four options:

1. Adopt the Ordinance as written
2. Adopt an amended copy of the Ordinance
3. Table the Ordinance
4. Vote down the Ordinance

Mr. Smith made a motion to ask the Planning Board review the request for a change and make a recommendation on the requested change to the Land Use Chart and/or a Draft Ordinance.
